Meadow Rose Quilting

**Custom Quilting with a
personal touch**

**Custom Quilting, Quilting
Instructor and Longarm
Specialist**

Longarm Quilting Services at Meadow Rose Quilts can be very straightforward and reasonably priced or more densely quilted with a variety of prices. You will notice there is a range of prices for the different categories. This gives the flexibility to quilt what you want and charge you accordingly.'

When quilts are brought in for quilting, I will complete an intake form and give you a price quote. I try really hard not to exceed the price quote. Your signature on the bottom of the intake form gives me permission to work on your quilt to our agreed upon details.

Quilts can be pre-booked through a phone call or email conversation. All price quotes will be an estimate until the quilt is in studio and a customer's signature is on the intake form.

It is important that your quilt borders be sewn correctly. A longarmer's nightmare can be borders that ripple and wave. This is caused by borders not being measured, cut and sewn correctly. There is a document on the website that you can use as a guide for sewing perfect borders.

Make sure the quilt top and backing are pressed and all loose threads are clipped. The quilt batting and the backing should be approximately 10" longer and wider than the quilt top. I.e. 60" x 80" quilt top should have a backing that is approximately 70" x 90".

Quilting prices are based on the square inch measurement of your quilt. To find the square inch, multiply the length of the quilt in inches by the width of the quilt in inches to get the total area of the quilt.

Custom Quilting 1: basting services include loading the quilt layers on the frame and stitching basting rows 4-6" apart across the quilt to hold the layers together. Basting the quilt layers allows you to quilt your quilt on a stationary machine or to hand quilt.

1-2¢ per square inch

Custom Quilting 2: Free Hand quilting with an all over Edge to Edge design. Design will be chosen to coordinate with the quilt top and customer consultation.

2-6¢ per square inch

Custom Quilting 3: Computerized Quilting using an Edge to Edge design. I have a selection of computerized designs to choose from. Customers are welcome to discuss purchase of designs from other sources.

3-4¢ per square inch

Custom Quilting 4: Free hand quilting with specific patterns and /or thread changes. As discussed in the quilt consultation when the quilt is booked in.

5-7¢ per square inch

Custom Quilting 5: Medium to higher density quilting with ruler work, free hand background fill and/or detailed patterns. As discussed in the quilt consultation when the quilt is brought in.

6¢ and up per square inch.

Trimming: The quilt layers will be trimmed even with the edge of the quilt top in preparation for binding. All fabric trimmed will be returned to the customer.

3¢ per linear inch

Binding 1: Sew the customer prepared binding to the front of the quilt using customer supplied fabric. Customer to hand or machine stitch the remaining side in place.

7¢ per linear inch

Binding 2: Sew the customer prepared binding to the back of the quilt and bring the remaining side to the front and machine stitch in place.

10¢ per linear inch.

Batting is available for purchase.

All prices include quilt loading and thread/needle use.

I reserve the right to refuse any service or return any quilt to the customer for improper quilt construction or materials used.

Longarm Machine rental: With a little bit of tutorial you'll be quilting your own quilts in no time. Paper pantographs are available to use if you choose not to free hand quilt.

\$35 per hour.

Classes are scheduled in the Meadow Rose Quilting Studio (Harvest Hills, Calgary) or can be held at various other locations depending on group interests.

Free Motion Quilting—domestic and longarm classes

- Free Motion Quilting: basics, next steps, feathers, rulers. A full list of possible classes are on the website.
- Longarm Quilting: many of the Free Motion Quilting classes are offered for longarm quilters. Students may wish to take a class to learn how a longarm works and to see about renting the machines for their own quilts.

Hand Dyed Fabric: Learn how to create beautiful colours using simple fabric dyeing techniques. All supplies included.

Studio 180 Design—all tools and techniques. Tools to help quilter's piece precision quilt units and blocks.

- Tool, Technique or pattern classes where students sew with instruction to complete a project or simply learn how to use the tool and sew the technique unit.
